This Code applies to all participants in ASN Events, including but not limited to employees, members, volunteers, guests, vendors, contractors, exhibitors, faculty, and other attendees (each a "Participant"). This Code is not intended to modify or supersede other policies, agreements, website terms and conditions, or rules and regulations that may be applicable to a Participant or to the conduct that is subject to this Code.

Reports may be anonymous or attributed. ASN will use its best efforts to respond to a Participant in no more than four hours during event days and

one business day when content is available on-demand, recognizing that it will not be possible to follow up directly with a Participant whose report is anonymous, and that ASN may have less ability to investigate fully an anonymous report.

- 5. Consequences of Reported Unacceptable Behavior:** Upon receiving a report of unacceptable behavior, ASN's priority will be the safety and security of Participants. To preserve a safe, educational environment, ASN reserves the right to temporarily suspend or terminate specific features available to a Participant or if in-person, deny access to event or to suspend or terminate the Participant's entire account/registration. When facts are in dispute or cannot be fully established, ASN reserves the right to take the action most likely to safeguard safety and security of Participants, including termination of a Participant's account/registration for the remainder of the ASN Event and denied access to the event.

A report of an adjudicated or officially confirmed history of a Participant's prior unacceptable behavior, if impacting the experience of other Participants at an ASN Event may, in ASN's discretion, be the basis for a response under this Code.

Violation of this Code, as determined by ASN in its sole discretion, is grounds for any action that the Society deems appropriate, including but not limited to warning the offender, denying the offender access to an ASN Event (including revoking or denying registration to an ASN Event), suspending or terminating the offender's access to the ASN Event, barring the offender from other ASN Event(s), and/or removing comments or posts from ASN's social media venues or ASN Communities. ASN reserves the right to take whatever action it, in its sole discretion, deems appropriate, with respect to the investigation of any matters related to this Code.

Any person who is denied access to or whose access is terminated during an ASN Event based on this Code may request that the Society review the matter after the ASN Event has concluded. However, ASN's action will be effective immediately and will continue until and unless the Society issues a contrary decision. Unless a contrary decision is issued, any person who is denied access to or removed from an ASN Event based on this Code will not be eligible for a refund of any registration fees paid for access to or participation in the ASN Event.

- 6. Communication from ASN:** ASN may communicate with an individual who reports unacceptable behavior if the individual chooses to submit an attributed report. ASN may also communicate with an individual concerning whom a report has been made, to the extent that the Society is able to identify and contact that individual. The nature, scope, and content of any such communication is in the sole discretion of ASN. If warranted, ASN may communicate more broadly with Participants at an ASN Event. ASN has the right to communicate about its responses under this Code to the employers or sponsors of involved Participants' vendors, local law enforcement, media, and the public as the Society deems reasonable and appropriate in its sole discretion.
